

# Installation Instructions for Surface Mount Linear Extrusions

1. Install as per Electrical Code by a certified Electrician.

2.

Remove opal lens with a slotted screw driver.  
Be careful not to scratch the extrusion or crack the lens.

**Do Not remove endcap.**

3.

Unscrew the LED plate and carefully disconnect the power going to the LED strips

4.

Mount the body to the ceiling and wire as per electrical code.

5.

Reconnect the power to the LED plate and fasten the plate with the screws. Reattach the opal lens to the fixture.

Test light fixture.
