

Installation Instructions

for Suspended Mount Linear Extrusion

1. Install as per Electrical Code by certified electrician.
2. Attached Threaded Stud to Cross Bar and mount to J-Box.
3. Connect the power wires and attach the Plastic Grommet to the cord.
4. Slide Threaded Stud through Ceiling Canopy and secure Cable Mount Nut.
5. Attach Ceiling Coupler to the ceiling on the non-power side. (Screw is not Included)
6. Slide Aircraft Cables to each end of the Cable Gripper mounted to the luminaire.
7. Adjust height, level the luminaire and then cut the access cable
